

RELYANT COMMUNICATIONS 24-MONTH TERM SERVICE COMMITMENT

You have chosen to sign a twenty-four (24) month service commitment with Relyant Communications and by signing this document and having it (counter-signed) by a Relyant Communications Representative, you are agreeing to the Terms/Conditions as follows:

- The service commitment commencement date will be the actual installation date of service for which you are entering this agreement. Once you enter into this agreement you are obligated to pay 24 full bill cycles for the services contracted within. Failure to complete this 24-month term by keeping and paying for 24 full bill cycles will result in a \$200.00 penalty being assessed against each Relyant Communications service account for which you are entering into a commitment. There is no pro-ration of this penalty for months paid for service- the full 24-month period must be completed or the penalty applies. Failure to keep all services by discontinuing one or more will result in the penalty assessment and will void the commitment for the actual service commitment period unfulfilled.

You are signing to enter into a commitment agreement of a 24-month term and therefore are agreeing to pay no less than 24 full bill cycles for the following services with the documented commitment period dates for each entered into:

_____ Wireline Voice (landline) Service with telephone number assignment (706) _____ - _____
