

Attention Wilkes County Relyant Communications Customers

Over the next few weeks, a Relyant technician will be visiting your property to collect equipment location data required by the Federal Communications Commission (FCC) and the Georgia Public Service Commission (PSC).

Our technician does not need to enter your home but will only be marking the location where Relyant fiber optic lines are connected to your home.

Our technician will be in a Relyant uniform and will have a Relyant identification card.

If you have any questions or concerns, please contact the Relyant Communications Business Office at 706-678-2121.

Thank you.
