

RELYANT COMMUNICATIONS RESIDENTIAL TELEPHONE/BROADBAND SERVICE OPTIONS
24-MONTH COMMITMENT AGREEMENT

Revised 9/5/2024

Relyant Communications offers the installation of Residential Telephone/Broadband Service for an **up-front charge of \$200.00** including one telephone jack and/or one data jack installation.

Alternatively, Relyant offers a **waiver of the \$200.00 installation** charge for Residential Telephone/Broadband Service with one telephone jack and/or one data jack. This requires a 24-Month Commitment to retain the Telephone/Broadband Service at the same physical service address for the entire Commitment Term.

Please initial your choice of installation offers below.

_____ Residential Telephone/Broadband installation w/one jack for (telephone and/or broadband with an **upfront charge of \$200.00 (to be paid in advance of scheduling)**).

_____ Residential Telephone/Broadband Installation w/one jack for (telephone and/or broadband) with **waiver of the \$200.00 installation** charge. I understand that this option requires my commitment to retain said service at the same physical address of the initial installation for a period of 24 months and that failure to retain said service constitutes a breach of my commitment to Relyant, for which I will be billed the 'waived' \$200.00 Installation charge upon disconnection of the service.

By signing and entering into a 24-Month Commitment Agreement with Relyant Communications, you are agreeing to keep the service at the same service location as originally installed, and you understand that a breach of this agreement will result in the \$200.00 waived installation fee being assessed or charged as a penalty.
